

MARTINDALE: WHAT WE HEARD

Theme	What We Heard	What We're Doing
Key locations for walking and biking	• LRT station • Genesis Centre • Schools • Exercise loops • Parks • Sikh Temple	New pathway and bikeway connections are proposed to all of the destinations. The location of these facilities can be seen in the concept map.
Crosswalks	• Martindale Blvd at Martindale Dog Park • Martindale Drive at Martindale Blvd NE • Martindale Crossing at Martindale Blvd • Near Ecole la Mosaïque School • 64 Street, Martindale Gate and Martindale Dr NE • Dashmesh Culture Centre	A number of these crosswalk locations are along the proposed pathway and bikeway routes. We will be exploring crossing and intersection improvements during the design stage.
Cycling safety	• Comments about cycling safety were placed on Martindale Blvd from Martindale Gate to Martindale Dr NE and in front of both Manmeet Singh Bhullar School and Ecole La Mosaïque School.	New pathways and bikeways are proposed along these corridors and connecting to these two schools.
Speeding	• Crossing Park School • Parks	The proposed protected wheeling lanes adjacent to Crossing Park School will narrow the roadway and encourage slower speeds.
Missing Links	• The bike lane ends at Martindale Blvd and Martinvalley Rd NE. • Bike path at Martin Crossing Dr and Martindale Blvd ends and does not continue around the park. • Pathway connections desired to adjacent communities – across Metis Trail, and north to Cityscape, and to greenways.	The proposed pathways and bikeways would complete the missing links identified. New pathway connections to Metis Trail will provide greater connectivity to areas to the west. The scope of this project does not go as far north as Cityscape, but the improvements will continue to grow the bike network in Ward 5.
Sidewalk	• Participants shared sidewalk issues on Martindale Blvd NE on the west side of the community.	Currently this project does not impact the sidewalk on Martindale Blvd NE, but this comment will be passed to the Roads Maintenance team.
Lighting	• One comment was made on a need for pathway lighting at the park behind Crossing Park School.	Opportunities to improve pathway lighting will be explored during future stages of this project.
