

Construction Notice

Ramsay-Inglewood Public Realm Improvements

Construction Progress

Our contractor, Aecon, has successfully repaired the sanitary issue at the intersection of 12 Street S.E. and 9 Avenue S.E. and continues to make progress along the 11/12 Street S.E. corridor. Major paving resumed and will be completed this week. Crews are also continuing to install sidewalks, street furniture, trees, bike racks, and other streetscape amenities throughout the corridor.

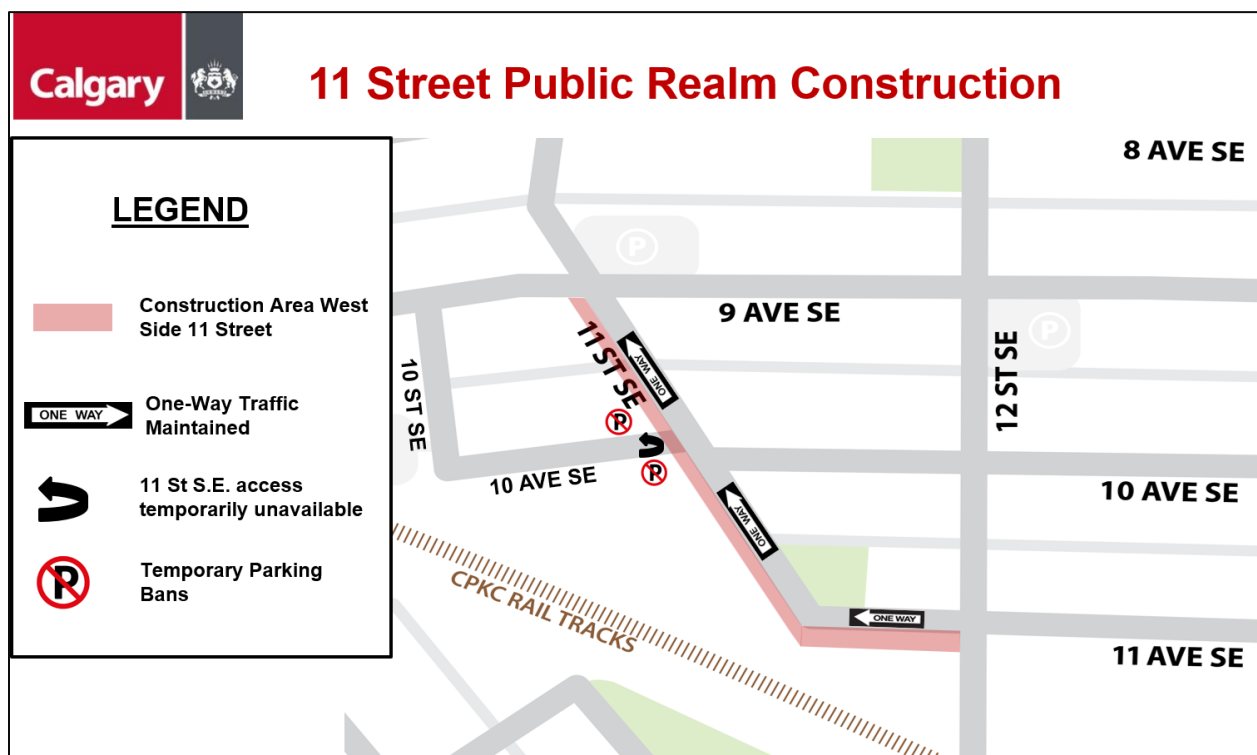

This is an exciting milestone for the project. As work advances, Aecon will soon be able to remove temporary traffic control measures on 12 Street S.E. in Inglewood, allowing all vehicle lanes and intersections to return to normal operation.

Looking ahead

Starting this week, the contractor will move into the final major construction phase of the project. During this phase, construction will take place on the west side of 11 Street S.E., between 9 Avenue S.E. and 11 Avenue S.E. S.E.

During this phase of construction:

- A temporary one-way northbound traffic pattern will be in effect on 11 Street S.E. (see map below).
- Access to 10 Avenue S.E. and rear lanes on the west side of 11 Street S.E. will be available from 10 Street S.E. only.
- Pedestrian access along 11 Street S.E. will be maintained through or around the work area.
- Signage will be in place to help direct motorists, cyclists, and pedestrians safely through the area.

Note: Access to the rear lane on the west side will be temporarily unavailable while the road on 11 Street S.E. is rebuilt. Use 10 Street S.E. to access rear lanes.
