

Inglewood & Ramsay City Project Updates

November 6, 2023

See below for information we've collected on City projects in Inglewood and Ramsay.

Community Gathering for Lilydale Demolition

Drop in and join the Green Line Team to mark the start of the building demolition at the former Lilydale plant site and enjoy some coffee and treats!

Green Line knows that Ramsay businesses and residents are eager to see revitalization of this property, and we look forward to getting together before this significant work gets underway. With main construction ready to begin in 2024 this demolition project ensures that the site is ready and demonstrates how the Green Line is already creating opportunities for growth and redevelopment.

Date: Wednesday, November 8, 2023

Time: 9:00 a.m. – 10:00 a.m.

Location: 2126 Hurst Rd SE

Event Access: Enter the site at the main gates on Hurst Rd on the west side of the property.

While interior demolition work has been ongoing for a few weeks, the work will now progress to exterior demolition work starting on November 8. The contractor is allowing us to do a quick sneak peek before that work gets underway.

Find out more about the upcoming demolition www.calgary.ca/GreenLineLilydale

There is still time to share your thoughts on a future path on the east side of the Elbow River, under the 9 Ave S.E. bridge

We are looking at potentially improving and expanding the pathway on the east side of the Elbow River between the Bow River and the McDonald Bridge, including underneath the 9 Avenue S.E. bridge. Rebuilding this pathway would improve accessibility and connectivity for all Calgarians between the communities of Inglewood and Ramsay, the future LRT station, the River Walk and other connecting pathways, and surrounding amenities.

We would love to hear from you! Until November 15, we want your input on the initial design concept to see what you like and also identify features that could be added to the design. We will then review your feedback, conduct additional technical reviews, and where possible, include minor revisions to the pathway detail design upon future funding.

Online engagement is open until November 15. Visit engage.calgary.ca/EastElbowPath
