

City Infrastructure Project Updates:

Inglewood - Ramsay

Your at-a-glance look at all the infrastructure improvements The City is bringing to your communities! Keep reading to learn more.

Public Realm Improvement Construction Updates

Starting **Thursday April 17**, the contractor, Aecon, will begin installing new utilities along 11 Street SE between 21 Avenue SE and 18 Avenue SE.

From Friday April 18 to Sunday April 20, **11 Street SE will be closed between 21 Avenue SE and 19 Avenue SE (local access only)**. Northbound and southbound traffic will be detoured around the block using 9 Street SE. There will be some parking restricted along 9 Street SE and 20 Avenue SE to allow for the additional traffic

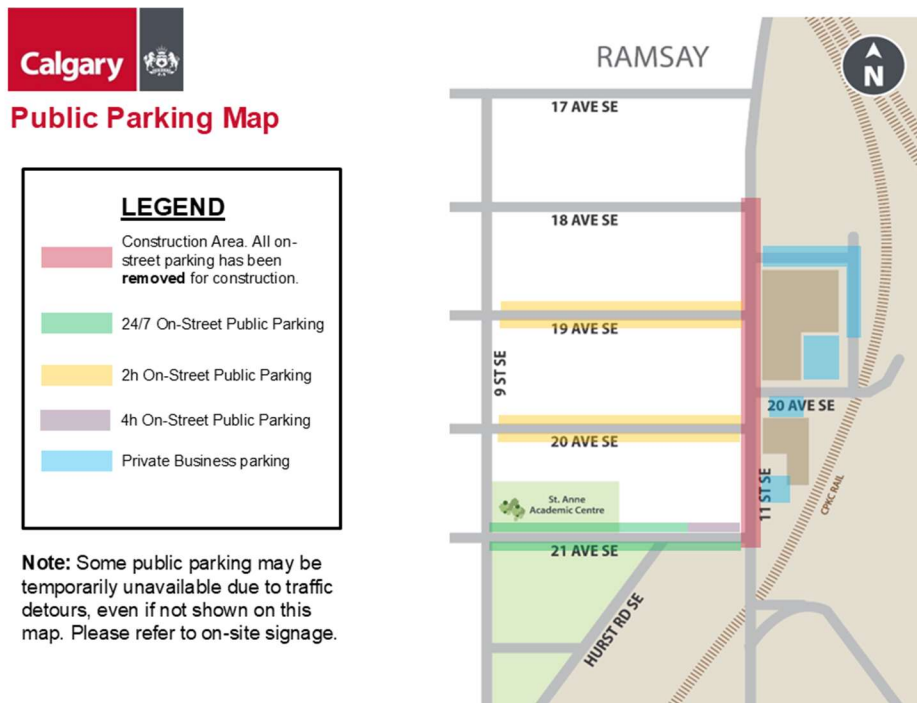

volumes. Northbound and southbound traffic will return to 11 Street SE before Easter Monday, April 21. (See Traffic map below for this detour information)

The contractor will continue work in this area following the Easter weekend. Stay tuned for more information.

While work is ongoing in the area, please note the following information:

Minimizing disruptions to keep you moving

- Pedestrian sidewalks and crosswalks will be maintained.
- Cyclists will share the road along 11 Street SE.
- Transit users should follow signage at existing bus stops to navigate to temporary locations. For more information on your temporary bus stop locations, see Calgary Transit's [Service Updates webpage](#) and search for your bus route number.
- Parking will be restricted along 11 Street SE during the work. However, access to private business parking will be maintained. To support public parking needs, additional 2-hour parking spaces will be available on 20 Avenue and 19 Avenue.

Businesses and property owners

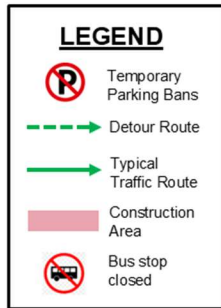

- Business access for customers will always be OPEN!
- Access to businesses in this area will be maintained for pedestrians, vehicles and cyclists.

Traffic Map: Easter Weekend Detour

WHEN: Fri. April 18 to Sun. April 20

WHY: Storm Utility Installation

Construction activities are dependent on several factors. Timelines and impacts of construction may change due to inclement weather, unforeseen underground conditions, complexity, supply chain interruptions, and/or other unexpected circumstances. Please follow all wayfinding and signage on site.

Staying informed

Construction notices and updates will be sent via this newsletter, so stay tuned for more information and visit the [Ramsay-Inglewood Public Realm Improvements project page](#) for the latest details.

Blackfoot Trail Bridge over 9 Avenue SE - Upcoming Construction Impacts

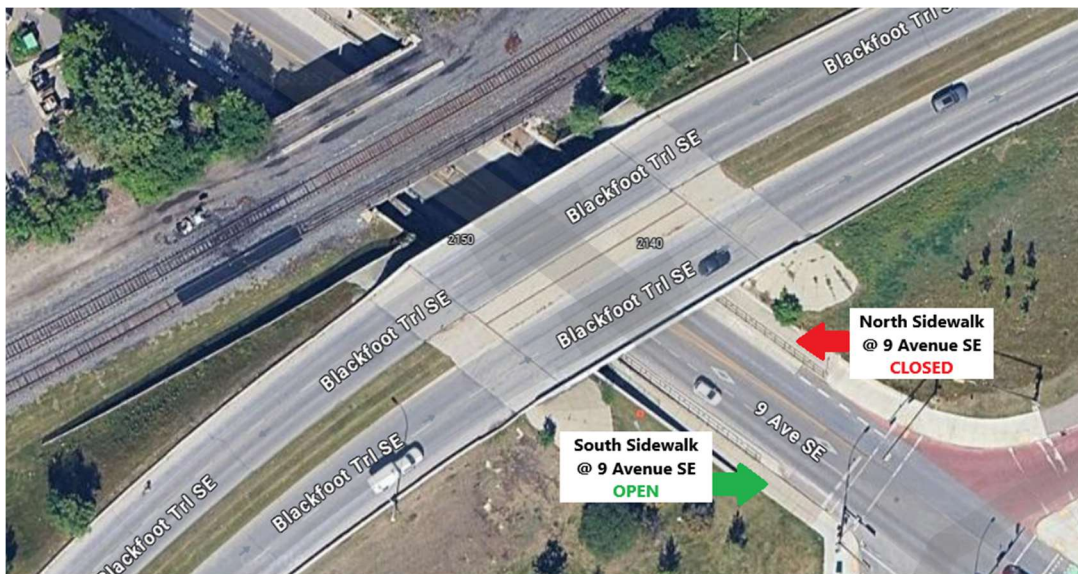

Traffic flow changes are coming to both Blackfoot Trail and 9 Avenue SE in the coming weeks to facilitate rehabilitation work on the bridge.

Impacts to 9 Avenue SE

- Beginning next week, the north sidewalk along 9 Avenue SE under the bridge will be closed for pedestrian traffic. Pedestrians will be rerouted to the south sidewalk at the intersections of 15 or 16 Street SE.
- Overnight closures to 9 Avenue SE (both the eastbound and westbound lanes) will be required for a couple of weeks in April to allow crews to safely install a work platform overhead for bridge rehab. Bidirectional travel will be maintained during the lane closures.

Construction flaggers will be on site to safely guide pedestrians and traffic through the underpass while the work platforms are being installed overnight in April. The north sidewalk will be closed and the pedestrian detour will be in place until June.

Impacts to Blackfoot Trail over 9 Avenue SE

- The eastbound traffic lanes on Blackfoot Trail will shift into the median over 9 Avenue SE beginning on April 11. This shift is expected to remain until June.
- No lane closures will occur and bidirectional traffic will be maintained.

Thank you for your understanding and for reducing your speed through the area while we undertake this important rehabilitation work. For more information about the project, visit our website [here](#).

Seasonal Patio Installations begin in May

Patio season is almost here. The City of Calgary is working with the BIA and businesses to have seasonal patios up and running by mid-May in Inglewood.

If you are interested in more information about the Seasonal Patio program, please contact andrew.sedor@calgary.ca

Inglewood Sanitary Trunk - Anticipated Spring Work

The **intersection at 8 Ave and 9 St S.E.** will be closed for approximately eight weeks while crews remove the roof slabs, repair the existing liner inside of the large sanitary chamber and reinstate and repave the road.

When crews were preparing to retrieve the micro-tunnel machine into the existing chamber that was constructed in 2020 for Phase One, deficiencies with the liner were identified. This liner will be removed, and a new liner will be installed.

- Pedestrians will have ongoing access to the sidewalk.
- Cyclists will have a dedicated lane on the roadway.
- Flaggers will be onsite to detour vehicle traffic as necessary.

Crews will be onsite at the **northeast corner of 8 Ave and 9 St S.E.** to remove the temporary water line that had previously been installed as part of phase two of this work. The line is underground in the 9 St S.E. alley and runs across 7 Ave S.E.

- This will take approximately one week to remove.
- Flaggers will be on site to ensure the flow of traffic and assist with parking in the alley and along 7 Ave S.E.

ENMAX will be onsite at **7 Ave between 8 St and 10 St S.E.** to remove a power source that had been previously installed as part of phase two of this work. This power source runs 7 Ave S.E.

- This will take approximately one week to remove.
- Flaggers will be on site to ensure the flow of traffic and assist with parking.

Please expect on-site construction activity including crews, vehicles, and heavy equipment, as well as noise (levels will be monitored), vibrations and dust. On-street parking will be limited at this time.

Visit calgary.ca/IST for more information.
