

Seton Regional Park Master Plan Phase 1 Appendices – Verbatim

November 2024

Appendix 1

Verbatim comments

Verbatim comments presented here include all feedback, suggestions, comments and messages that were collected online and in-person through the engagement described in this report. All input has been reviewed and provided to Project Teams to be considered in decision making for the project.

Any personal identifying information has been removed from the verbatim comments presented here.

Comments or portions of comments that contain profanity, or that are not in compliance with the [City's Respectful Workplace Policy](#) or [Online Tool Moderation Practice](#), have also been removed from participant submissions.

Wherever possible the remainder of the submissions remains. No other edits to the feedback have been made, and the verbatim comments are as received. As a result, some of the content in this verbatim record may still be considered offensive or distasteful to some readers.

In-person feedback

Open house

Question: Tell us if you have any additional ideas, thoughts, or questions about this project.

Art Gallery, statues, carved sculptures
Playground! 😊
Splash park, restaurants [unintelligable] park, mini markets
Smile forever! With more trees
Space to play
Slide
Hockey rink in the winter, vegetables plots in the summer
Shaded areas near playground for parents
More trees
Giant play park
Winding trails, natural trees and bushes
Rain filtration garden, community herb, produce gardens
Basketball court
Basketball court, water park
Playground and soccer field
Playground
Water park
Picnic area in shade
Active/rec at east, passive area west
A playground, flowers, pool and splash park
Dog parks, water park
Kids playground and small off-leash like in downtown

Seton Regional Park Master Plan

Phase 1 Appendices – Verbatim

November 2024

Running space
Splash park or pool for the kids
Outdoor fitness
Baseball diamond, walking paths, shaded around a park, inclusive playground
Native wildflower corridor to support native ppollination, lots of trees and native plants and grasses
Slides, a horse and a cow, wings
Basketball full court
Fountains, interactive public art
Playground
Siting areas
Bouldering wall
Community gathering 😊
Trees, pathways,benches,bear bins, dog friendly but not dog park, enhanced maintainence (class A), too many weeds and foxtail, playground and picnic areas
Splash park, amphitheatre for shows, skaing ring
Playground, dog park, garden, flowers
Large playground, baseball diamond, mini golf course, gathering area with fire, sports courts (pickleball, basketball etc.)
Community garden
Paved paths with benches and trees
No skate park
Tree, water features, community garden
Toiletttes at bike areas
Playground – inclusive for all!! Sitting areas, benches, quiet area, skate board park, trees, bushes, native to alberta
Pump track, playground equipment, amphitheatre
Space to play with a play ground and a nature walk
Medicine wheel
Pand park, trees
Swings
Fountain
Swings, slides, sand park, stones, pond/lake
Splash park, playground
Way finding/sutools/scavenger hunt
Skating rink
Biking area
Natural landscape, trails, benches
Cross country trail, amphitheatre-plays, community garden, skateboarding park
Skating, hockey rink, community garden, baseball field, telescope to view skies

Seton Regional Park Master Plan Phase 1 Appendices – Verbatim

November 2024

Dog bag/waste station, dog park, more trash canes (always litter from YMCA and high schools)
Active area east and across from YMCA, serene/quiet area by condos down towards west end of greenspace, fence for condos, hills etc.
Leashed dogs, safety lights
Biodiverse natural areas with access and activities for everyone
Combination of both, not too wild but not a bunch of concrete! Multiuse areas would be a bonus!
Gathering/community space for seniors
Playground by YMCA, zip line for kids
5 A side soccer field indoor
Naturalized with trail access, functional parking, public art
Sand park, stones, bicycle trail, playground, no dog park
Aquarium
Baseball diamond
Gardens greening, quiet, no dog run, no off-leash, no parking
Tree hockey ring, tennis court, bikes path. Shade area, 6 a2 EBO
Rollerblade ground
Jogging/walking path, no bikes
Small waterpark
Wood look forward to more activities for kids, a good play area for better swings
Camping/picnic
Community garden and park for kids
Ball/ice hockey rink/space
Cross-country skiing trail
Bike/skateboard park since the YMCA and high school draws a teen population to the area
Kids playground please
Accessible playground, look at playground in Nanaimo BC
Splash park, playground
Trees, benches, walking ways, quiet area, pond/waterfountain
Bicycle line, playground for grandchildren, pickleball courts
Pathways – passive activities, place to sit, open green space, water feature, trees
Bicycle line, playground for grandchildren, pickleball courts
winter slide spaces, jogging area
No offleash dog park, no basketball, no skating, water fountain
Stroller, bicycyle, wakking parks
Trees and paved pathways, benches, pond, dogs M.B leashed and owner pick up after only
Kids playground, small dog zone, like in downtown
Look at the Maffeo Sutton playground
Native plants, flowers, trees to support biodiversity
Buffer recreation activities

Seton Regional Park Master Plan Phase 1 Appendices – Verbatim

November 2024

Bike park
Eliminate fox tail (no more vet visits)
Seton cricket club – cricket pitch, we have 250 members from seton and around
Water park, more food truck, gazebos, mericas, fountains, seating love for sharevesh aviation
Cardio/yoga class area
Skating loop
Activity garden
Of active recreation keep @ YMCA end of park
Running track with trees
Mulit-use court (soccer, basketball, pickleball), mini golf area, caged-in multi-use court, chess table, fixed benches
Shouldn'tbe bookable spaces only, parking needed
No dogs allowed
Playground, tennis court, splash pad
Mountain bike park
Mono rail will attract more people
Canteen and car park free
Hard surfaces for walking on
Gazebo
playground with monkey bars
klater park, trees, seating area with shade
Tennis courts/pickle ball court, walking paths with shade, pickleball the fastest growing sport in north merica)
Paved path, trees
No dog parks
Beach volleyball with sand
Small dog enclosed, toddler park, park for reading
No dog park, trees please, concrete parths and benches, flowers
A friendly park, water fall, tots playground, playground
Small dog off leash park, zipline (like the one in Walden/Ralph Klein, shade for summer (structure)

Pop-up Events:

Question: Tell us your ideas!

Water park
Basketball court
Playgrounds including monkey bars and swings
Pool
Shaded gathering area

Seton Regional Park Master Plan Phase 1 Appendices – Verbatim

November 2024

Pickle ball
Walking track
Mountain biking track
Skate park
Climbing wall

School Feedback:

Teacher:

Outdoor ampatheatre/teaching area
Skatepark
One teacher wants to design the park with us – possibly in the Fall.

Student:

Benches, basketball court
The school can gather, or kids can gather
Something to people will draw
Outdoor movie space
Multi-use field space for events and can use for sports
Gazebo
Art that would represent the students or youth in the park, mural
Indigenous Art
Walking paths
Running track
Food kiosk
Plants/trees
Medicine wheel garden –
Riley Park – agriculture – flowers (know it is high maintenance)
Native flowers/bee gardens
Seasonal amenities – ice skating/roller skating
YMCA has rinks/indoors
Splash park – turns in to an ice rink with fire pit
Graffiti walls?
Trees to provide shade
Lighting
Materials - free space to vandalized
Some communities like Auburn Bay – community association only, want public amenities
Bookable space for BBQs – open area – creating a balance when to book to make it accessible, sections only

Seton Regional Park Master Plan Phase 1 Appendices – Verbatim

November 2024

Collapsible structures in different seasons
Mini-curling rinks
Picnic areas
Pretty/aesthetically pleasing (people like to take photos!)
Should have active and passive spaces
Basketball courts with art (ex. Bounce Courts), rooftop basketball courts
Clean and accessible washrooms
Separation between bikes and people to help with safety.
Cameras – keep people accountable
Consider distance from the road for playground and young children
Well lit at nighttime will make you feel safer
Signage for safety and rules/visual signs – positive language and visuals
Riley Park, General Hospital Park (Bridgeland), Westman Village in Mahogany, Bowness Park – lagune and trees (vibrant, something for every age group), Prairie Winds Park (basketball, playground, lots of open space to do anything)
Snow hill for sledding
Visual/interesting signage
Name for the park with a story/with signage/scavenger hunt (bird house story?) – translated in Indigenous languages, different stories/seasons
Would like to help finding a meaningful name for the park – Indigenous name for the park would be supportive (school is named after an Indigenous person)
Community library in the park/little libraries
Activities in the park/signage/activities – QR codes and have physical instructions
Dogs allowed on-leash
Be able to theme the area – Christmas lights, pageantry lighting
Signs circular – including the medicine wheel

YMCA/Library Feedback

Staff:

Accessible/safe crossing, rainbow sidewalk
Traffic calming
Playground closer to the YMCA
Multi-sport court to use for different activities ex. boot camps, ball hockey
Basketball hoops – Bridgeland
Accessible playground – like Shouldice and Vivo
Pathways, geocaching, scavenger hunts
Disc golf
Outdoor exercise equipment – bootcamp/circuit training
Winter activities, snowshoeing and/or cross-country skiing
Natural green space

Seton Regional Park Master Plan

Phase 1 Appendices – Verbatim

November 2024

Shade cover, shade structure, trees
Community garden – Y camps can use
Community greenhouse
Parking is a premium – need time limits
Keep entrances – multiple to capitalize on square footage
Water feature/pond
Progression of features along the path
Bike parking
Park/pump track
Signage – info about neutral areas, long-term, QR codes
Does not support rentable space
Natural open play space
Fire pits
Place for food trucks
Not supportive of small commercial
Millenium Park – taken over
Indigenous – medicine wheel included, education signs
Priority natural areas first
Include natural and paved pathways

Online Feedback Form

Question 1: How do you see yourself using the park most?

A place to meet friends or where public performances can take place
All ages mountain bike skills park, or pump track.
An activity area for spending time with kids and doing physical activity for myself. It would be nice to be able to do yoga or marital arts group activities during nice weather.
Being with family and kids outside
Bike and walking path. Spray pad. Sport courts. Ability to have regular outdoor movie screenings.
Bike skills park
Both active and quiet
Both being active and quiet activities
Both options
Both
Both
Community garden
Community gardens
Connecting with others
Dog friendly spaces
Dog
Family time

Seton Regional Park Master Plan

Phase 1 Appendices – Verbatim

November 2024

for BBQ
I would use for both. I think it could be used for both. I think should be available for fun community events.
Include a water park or sprinkler for children to enjoy
Kid spaces
Looking for birds
Meeting up with friends and family for picnics and activities
Mixture of active and quiet spaces
More parking is needed we don't have enough
Mostly a quiet space (sports activity wise) but can come to life culturally on occasion with live outdoor music or theatre on occasion.
Need a cricket pitch very badly in south east quadrant. We are 200+ people from India, Pakistan, Srilanka, Bangladesh origins and we come to play at the ground beside YMCA. That ground is mostly occupied by other sports and we try and use it when it's not occupied but without pitch, it's not safe to play there as it's uneven ground and ball can go anywhere. We need dedicated pitch.
None, leave it alone! There is already ZERO parking on the streets for people who live in the area.
Option for festival type entertainment in a smaller scale, for example the Sunfest, a multicultural event for all.
Outdoor gym for seniors
Outdoor water park like Riley park, Bowness park. Man made tubing park
Park benches and trees maybe a reflection pond
Pickle ball with other adults and jungle gym for my children
Play with kids
Roller hockey rink with sport court!
Running, running track or trails
Seating areas where you can play a board game / chess (ie table) and benches.
Skatepark
Small Playground for kids
Something like the Railyard Bike Park in Rogers, Arkansas would be amazing. The velosolutions style pumptracks going up around the city are great but almost none of them are built with proper jumps and just offer fast corners limiting the potential enjoyment, they're basically all green rated aimed at new riders. The blue lines aren't even any more challenging, just longer. We need more blue and black level runs with larger tabletop jump features. The city skateparks have bigger features and allow higher skill expression but are primarily for skateboards, scooters, and bmx bikes. Modern park MTBs (24-27.5" wheels), cruiser BMX (24-29" wheels), and longboards work best in the pumptracks but like I said, they aren't challenging enough and are currently too central for deep SE residents to access easily. I have to drive to Fairview or Glenmore from Mckenzie Towne with my bike in the rack.
Splash park and playgrounds
Taking my kids, baby/toddler
The area needs a baseball diamond

Seton Regional Park Master Plan Phase 1 Appendices – Verbatim

November 2024

We should have a lake/beach of some sort in Seton. It's so important to increase value as all nearby communities like auburn bay, McKenzie, mahogany have one. That would be a huge huge success for seton.

Question 2: When designing a park, we also want to select seating options that make sense with the activities in the park and support community connection. Tell us the types of seating you would like to see. Check all that apply.

A combination of seating options
A mixture of all above
A variety of all of the above.
Accessible seating
BBQ day use areas
Benches and single seating
Flexible seating will likely get stolen or vandalized. A mixture of both park benches and group seating would be best. Maybe some central group areas with perimeter benches at the edges of the plot.
Group seating under some kind of covered spot to get away from extreme sun or rain.
Group seating, but with backrest on all.
Hammock seating that can be swings OR hammocks. Please see this European design: https://www.designboom.com/design/off-ground-playful-seating-elements-for-public-spaces/
innovative Park Benches
Majority trad park benches with one group seating area
mix
None. Don't want any.
Permanent lounge chairs similar to those on the ridge pathway in Okotoks.
Picnic benches
Picnic tables
Picnic tables
Picnic tables
Picnic tables scattered throughout the park. Spaced well apart for privacy/ quiet enjoyment.
Picnic tables scattered throughout. Not all in one area
picnic tables with benches
Picnic tables with canopies
Picnic tables/shelters
Playing area
Please no dog park. Even if a owner of a dog, there is plenty around
Provide ability for lawn chair seating for occasional festivals, outdoor music or theatre events.
Seating built into hills
Shaded seating availability (like a permanent pergola type structure built above)

Seton Regional Park Master Plan

Phase 1 Appendices – Verbatim

November 2024

Structural art seating
Tables / chairs where people can sit and have lunch or play a board game.
The area needs a baseball diamond
Traditional benches, in pairs, place perpendicular for social seating, without homeless deterrents in the middle

Question 3: Regional parks have unique amenities and users often stay longer to enjoy them. To support longer stays comfortably, we want to create welcoming gathering spaces. Select the types of gathering spaces you would like to see most at the park.

A combination of both
A couple covered picnic buildings, including bbq pits (like the kind they have in Bowness Park) for family gatherings with a fantastic playground close by.
Both
Both multi use and smaller gathering spaces
Covered to bring in more shade/ bring in more trees to sit under
definitely a large gathering space, but why not also have smaller gathering spaces around the park.
Lea her type seating around a concrete pad to allow school bands, ethic dance concerts, school plays to be exhibited.
MTB Skills Park
None. Parking is already absolutely horrendous.
Paved pump track, identical or better than the one in west confederation park. I will donate to make it happen.
Playground
Playing area
Shaded options please! Hard to find parks with shade for elderly and for people to sit and enjoy. There are benches at the parks in the south but very few shade options!!
The area needs a baseball diamond
Wadding pool and playground
What about parking? Where would everyone park? Streets around the park are already full of cars

Question 5: What type of open space would you like to see most in the park?

Requesting a cricket pitch in Seton to serve the large Indian population, ensuring safety, community engagement, and recreational needs.
A combination of both - however, many parks i see in other communities that Calgary is supposed to be looking after have crusty dry grass. We only want grass if it's going to be looked after and not become dry and full of weeds.

Seton Regional Park Master Plan

Phase 1 Appendices – Verbatim

November 2024

A combination of both. But could we consider gravel or vegetation type pathways? In keeping with a sustainable park, could we utilize as many natural items possible? Something that provides an interesting view/learning opportunity- history of the land/wildlife zone/bee apartments...
A running path and a bike path (just within this park)
Cricket Ground
Cricket pitch
Cricket pitch
I am hesitant to suggest market/pavilion space etc... as I would not want protestors for things to be staging there and disrupting the proceedings of the park.
Large trees for shadows during summer
Mtb skills park or dirt jump pump track
No art!!!!
None. Leave it alone.
Pickle ball court and kids park
Playing field
Pump Track or Mountain Bike Skills Area
Skate park
Skateboard snake run/bike pump track (concrete). Also Skate/Bike park
The area needs a baseball diamond
The hospital brings in thousands of patients and visitors from all over Canada and the US. The park needs a safe, therapeutic place to gather with most of it handicap accessible 🧑🏻
Trees
Water feature

Question 6: We would love to hear what excites you most about the park! Tell us if you have any additional ideas, thoughts, or questions about this project.

- Tennis Courts - Work out park
Requesting a cricket pitch in Seton to serve the large Indian population, ensuring safety, community engagement, and recreational needs.
A band shell as partially mentioned earlier for Dance etc and lots of garbage and refundable items cans that are emptied on a very regular basis. . And NO a dogs allowed at all because I don't want to see or smell,poop nor sit on the grass that has dog pee on it. Take the dog someplace else. Children should be able to run barefoot in the grass without fear of pee!!!!
A beautiful place to walk the dog with paths, greenery, flowers, trees, a place to play frisbee, have a picnic, a safe but fun hill for sledding in the winter for all ages.
a beautiful shrub, tree & flower green space to stroll & enjoy , benches to sit & visit or read a book....

Seton Regional Park Master Plan Phase 1 Appendices – Verbatim

November 2024

A beautiful space where people can walk/run/bicycle/sit. Combination of natural and groomed areas so aesthetically pleasing and well kept. Somewhere you can have a picnic lunch. A water feature would be nice as long as it was monitored for vandalism. Looking forward to the park.
A big playground for the kids with shadows, a space for dogs to play, “gym” space with some exercise tools, covered spaces to parties or bbq.. please, build an amazing park! 🙏
A bike park (see the Chestemere Bike Park as an example) would be ideal for this location.
A bike park in the south
A bike park would be well used in this area.
A bike pump track and/or skills area would be great!
A bike pump track or bike skills park would be a great activity area. It would encourage an outdoor active lifestyle.
A children's park would also be amazing to include!
A family friendly area to head to in summer or winter for community events and recreation with spaces to relax and enjoy nature
A fenced in area would allow inclusive space for young kids or those with disabilities (autism for example) with elopement risk to the street
A full basketball court please.
A fun playaprk for kids
A good pump track or like lake chestermere dirt jump park.
A good splash park area with some space to day picnic would be good.
A great outdoor place to visit w/ family/friends or solo. Please make it dog friendly. Think about safety & proper lighting.
A gym for weight training would be nice
A local gathering place for families and groups on evenings and weekends to do various activities. A multi-use area for various groups to do activities concurrently with other groups and activities, not dominated by a single feature or activity. A central park for people to feel safe in and able to enjoy family activities related to the YMCA across the street.
A modern children’s playground would be nice. I know there was mention of surround amenities. But the other children’s playground is further south and not a feasible walking distance, and would love to have more options for children that are still to young/interested to have to pay to get into the YMCA
A mountain bike skills park would be a fantastic addition! Add a pump track for even more fun!
A multi-use space that brings people together for a positive experience all year around. We would like to see an entertainment space. In Winter, a skate pathway that winds and loops around the park would be awesome. Festivals for each season! Thanks!
A new place to walk
A new space to enjoy in our area!!!
A nice space for children

Seton Regional Park Master Plan Phase 1 Appendices – Verbatim

November 2024

A nice walk everyday!
A paved pump track please! It will keep me from driving 30 min a day to get to one in this city!
A place for all ages to enjoy, sit walk through, play.
a place in south calgary to relax, run/walk, and go to community events
A place to be with the whole family, including kids, elders and pets.
A place to bring students from JCS for learning opportunities. A place to bring a family to enjoy the outdoors.
A place where adults and children can play together. Pickle ball courts and jungle gym
A playground for the kids would be nice
A public skating rink with a hockey section as well as a plaza type summer event use would be a bonus for this space! Summer time bbq pits with tables would be a good addition.
A pump track for the SE of Calgary would be amazing. Young bikers in SE Calgary have no paved pump tracks to use down near Seton and Cranston
A quiet area , with small tot lot in the S.E. corner. Something akin to Stanley Park. Trees, shrubs, flower beds ..make it worthwhile, but bear in mind thd considerable LACK of parking space around this facility.
A small 9 basket frisbee golf would be a fun family attraction in this space. It would be so nice to have that combined with pathways and trees with seating. Gathering for small groups of 2 - 12 with picnic tables so you can have a picnic. Garbage cans. Functional art would be beautiful and different.
A small bicycle shop. All tools needed to perform minor repairs. Tool to be attached to some sort of system where you can hang your bike to fix what is needed.
A small disc golf course would be amazing, the closest public one in the south is in walden
A small section to engage active recreation, such as a bicycle skills park. There is not one anywhere near Seton
A space for toddlers and small kids to play or maybe a playground. Trees, lots of it. Benches, something that can be used for picnic.
A space where people can walk and gather peacefully
A splash park along with a playground would be great. I know there us already a splash park going in else where, but having another would make it a lot easier for those that can't get around much.
A tree canopy would be nice. This space is near condos so a quiet space would be great.
A wading pool would be an amazing addition to the SouthEast!!
a water body would be a great fit as the community does not have one
A water feature with a fountain, walking trails and lots of trees
Absolutely do not turn this into an active park. This should be a dedicated greenspace for people to relax and enjoy. There are other areas for activity but none in the area for green space.
Absolutely nothing. This area is an absolute nightmare for people that live here and use the street for parking. Is there a plan for a parking lot?? Probably not. This idea just makes me want to move out of Seton. This entire area was designed horribly.

Seton Regional Park Master Plan

Phase 1 Appendices – Verbatim

November 2024

Accessibility for SE residents excites me and the thought of spending time at a park within the community as well. Adding a spray park for children to play would be amazing.
Accessible play ground. And a ninja style play ground with
Activities and play areas with social spaces
Add a Pump bike Track /skateboard /scooter /roller blade park would keep the area for the young teens to hang out after school
Adding a pet area would be very beneficial to all the residents around that own pets
Aim to include the ability for occasional seasonal festivals including live outdoor music or theatre (i.e., modest stage and lawn chair seating).
Also include areas for dogs and dog amenities (water, garbages, etc)
An 18 hole disc golf course at the se end of the city would be well used. Disc golf is an inexpensive sport for everyone.
An area for kids to play & the school close by to use as a gathering space to keep teens busy!
An area that could provide something for everyone. Combination of walking paths but also areas where markets or group yoga for example could occur. Something for all ages including kids as there is no park of sorts super close for those in that area.
An event space where outdoor theatre could be hosted
An outdoor workout area would be nice.
Any creative playground/ children zone would be great!
Anything for kids!!
Area for long walks/runs/snowshoeing, water access lake/river
Area that can be made into skating. Similar to the ice paths found in other parks along the walking paths.
Areas for biking activities. Pump track or MTB Skills Park
Areas for older kids would be an asset to the area, especially with the high school next door.
As a seton resident, I would like to see a cricket ground in seton area. With the amount of people showing up only sport. It would be great for city to consider this option to install cricket ground. Thank you
As an active person, one of those outdoor workout facilities.
As Seton is already a busy active area with the South hospital, the Y, the Library, shopping areas, and Market street planned. I would like to see the majority of this park dedicated toPassive park spaces. With an abundance of useable relaxing green spaces for walking, visiting with others, reading etc.
Asphalt pump track. Popular social and physical activity. Great for kids. SE does not have one.
Basketball courts
Beautiful flowers and water area gives a peaceful vibe
Because of the increased prices in housing there appears to be a lot of kids living in these condos. Also many of us have grandchildren, I'd love to see a toddler playground installed. Also tons of small dogs, an enclosed small dog park only, would be excellent'
Because of where the park is located I would like the park to cater to seniors and young,children, somewhere SAFE. There are a lot of condos and senior complex in the area. We need accessible walkways, with good lighting, and somewhere safe to sit. Most of all I would like lots of trees, to bring

Seton Regional Park Master Plan Phase 1 Appendices – Verbatim

November 2024

nature back to Seton. PLEASE NOTE that there are safety concerns at the skatepark in Seaton. Can we have some large trees please, so the park doesn't feel too new!!
Being so close to hospital, ymca and condos parking would be an issue. Designated parking for park would be required
Big board games like chess ♟️
Big inclusive playground since the are none down this way.
Bike dirt jumps
Bike park/skills area
Bike paths , dog friendly spaces for off leash
Bike pump track and wooden skills feature area. These are great for people of all ages and draw people to the area. People stay longer in these locations and it builds community. It would be nice to have something like this in addition to a naturalized are with hiking/biking trails with adaptive trails for adaptive cyclists. It would be awesome to have more adaptive offroad trails all over Calgary. After all the water issues it would be best to avoid things that require a lot of water and maintenance. Could cause discourse if water & drought continue as a trend.
Bike pump track is needed in the SE
Bring more nature to area and less modernization
Can we include shade areas other then JUST trees. From a mom, shade can be a deal breaker for participation in spaces. On hot days, windy days a break from the elements can be critical
Can you please make a Cricket pitch? We would love play here in a safe and secure environment.
Children friendly zone will be a great addition.
Children's spray park would be amazing for summer fun
Clear, direct signage on user expectations. Sign "no dog" areas as it is constant issue in playgrounds and pee/poo damage is not good in spaces where people play/sit on grass. Dog free spaces are important too, and not supported and signed enough for those harmed by dogs and irresponsible owners. SAFE, CLEAN spaces do not always include dogs, and needs to be clearly signed so even a child would understand by just looking at park space.
Close proximity.
Concerned about parking - it's already a nightmare infront of JCS High School
Connect with bike and running path
could we please get a tennis court? there is not enough tennis courts in the SE part of the city and everywhere is packed and busy all the time. it would be nice for Seton to have a tennis court! this way pickleball players can use it too!
Could you add space for disc golf?
Covered spaces would be great!
Cricket ground for the community to be active and allow a safe place for sports enthusiast to play.
Cricket ground please
Cricket ground please....much needed in south

Seton Regional Park Master Plan Phase 1 Appendices – Verbatim

November 2024

Definitely splash/ Water park for kids. Designed as a beach stlye. Area dedicated for kids separate from big kids. Gym like playground for kids that help them become fit, taller and stronger. Natural lanscape, where we can foster nature, migratory birds etc. Strictly no dogs allowed off leash. I have seem people leaving their dogs off leash, and they attack kids and old folks. Dog owners leave poop and do not pick after.
Dog and kid friendly!
Dog -friendly!!
Dog park would be nice
Don't have to drive a far distance to enjoy a park that offers variety & we can stay for awhile in. It would be nice to have a bike/scooter path that is safe. Also a nice playground that accommodates all ages & has enough shade when days are hot. Comfortable picnic areas & many garbage/recycling bins strategically placed.
Don't waste your time and our money. While I selected options on this page, I laughed. Manicured lawns...lol, this from The City of Weeds. Dandelions everywhere, dangerous foxtail everywhere. There isn't a single manicured lawn in any City park. Flexible (moveable) seating. Are you deranged? It would be gone within 24 hours. Honestly, don't be that stupid. Art...just don't...Pave some roads, fix some water mains, repair potholes. Wake up!
Duck pond with bird blind/viewing platform to reduce impact on wildlife, wildlife conservation area (no bicycles, dogs, strollers, etc, like Ann & Sandy across Conservation Area), native perennial plant species, food forest (apple trees, pear trees, raspberries, Saskatoons, etc), community garden space.
Due to the warmer weather in summer a spray park for smaller children to use with parental supervision.
Fenced in play area for kids
Finally getting this done and being rid of the foxtail. Looking forward to seeing flowers that are kept watered and lawn that isn't dead! Use the damn irrigation so people can enjoy the area how it is designed. I've yet to see a park designated with dead grass everywhere but the City turns the irrigation off everywhere it seems. This current council and mayor are absolutely useless! Maybe by the time this actually gets done we will have wiped the slate clean.
For many people in this area, this park will be their outdoor limit living room or backyard. It also is a centre focal point for the community and it would be nice for them to have a space where they can host events or perhaps outdoor theatre or small musical groups..
Garbage/Recycle cans and dog poop cans. Ambient light at night.
Gathering, take my aged parents to. Events.
Get rid of beavers, they destroy parks
Given the recent explosion of cycling in the last few years, would love to see something geared towards bikes, such as a pump track (which can also accommodate other wheeled activity such as rollerblades, scooters, skateboards, etc...)
Great spot for a pump track/bike skills park.
Great!
Greta to have a large flexible space to hold small concerts, festivals, fireworks, etc etc etc.

Seton Regional Park Master Plan Phase 1 Appendices – Verbatim

November 2024

Handicapped accessible and no hostile architecture. Such as divided benches, spiked railings/flooring. If there's washrooms put baby changing tables in all washrooms (men's/women's/gender neutral)
Have a space to leisurely walk through and relax in.
Have something usable like a track a field area that clubs can use
Having a natural, functional park to bring my growing family to is very exciting!
Having a place to do picnic and play with my kid
having an area for quiet contemplation and a place to meet with your friends and have conversations and maybe play some cards or board games or even have a light lunch in a pleasant area a little closer to nature!
Having an esthetically pleasing park that has a combination of beautiful landscaping (drought tolerant and native species) but also functional elements to use too. Especially where the location of it being- not much to walk to by the hospital and nearby businesses that feel like you are out in nature. It feels barren and empty out in seton to me as far as nature goes. I'd love to see trees and shrubs and areas for hanging out to picnic and chat with a friend over tea or coffee.
Having good parking space with maybe a little pond and enough bins around, and signage would be great. It should be welcoming for specially-abled people as well. Thanks.
Hi! We are looking forward to have this park here. But we would really like to have something for small kids. Thank you!
Hockey rink for winter
Hopefully it is well maintained, then it would be an amazing addition for family time and to get together to meet new people.
Hopefully you make this park super safe so that homeless people aren't wandering or loitering around. Also have multiple smaller spaces so some people aren't hogging one area. Have trash bins that are accessible as people are disrespectful when trying to use a free area. Don't install anything that can be removed as it will just get stolen. Don't put any stupid art in this park as that alone costs a lot of money. Put that money in making the park practical and useful
Hoping for lots of activity spaces to enjoy that brings people together. Also hopeful for a space for events to be held. Love to see a vibrant community!
I already submitted my feedback but wanted to say how excited I am for a regional park in Seton - it's much needed - thank you!!!!
I am a resident of Seton and I would prefer it did not become a zoo. A nice quiet, relaxing, and peaceful area to walk in would be fantastic!
I am concerned about how you plan to maintain this park. I currently reside close to a different park in Seton and it is a mess, very poorly maintained. I had to stop at walking my dog through the park due to

Seton Regional Park Master Plan

Phase 1 Appendices – Verbatim

November 2024

the excessive amount of foxtail weed that had overtaken the park.
Is there a plan to maintain this park? Will the other parks in the community see even less maintenance when this park is developed.
I would much rather see the current areas of Seton be better cared for than another area that will become a dead, weed riddled area that will be avoided.

I am excited about this! I would love to see meandering pathways for dog walkers, and natural (earth tone) colours that are soothing and inviting for any park equipment, playground equipment, or functional art. In contrast, the loud colours found on some of the surrounding buildings are jarring and awkward. Please no skate park equipment. I believe that the teenagers from the high school will naturally come over and enjoy the space, so I would love to see more emphasis for young children and families.

I am excited to have the park nearby where I stay and I will make an active use of it for running, walking, exercising and engaging with my community.

I am resident of surrounding community and me and other fellow from Southeast play Cricket quite often and we will be really happy if you provide us a designated area specifically for cricket. Thank you

I am so thrilled this is in the works.
However I have hosted many friends from Europe and Latin countries and many have commented on the lack of public washroom access in Calgary parks!!! We will be at a park or playground and ****every age**** needs to use a toilet at some point so you need to drive back home or to a store to do so. Defeats the purpose of enjoying outdoor time.

While I realize that vandalism and cleanliness, etc are barriers, there are many many other places in the world who successfully offer public toilets. Even fee for use is a possibility.

Please please please if there is one thing you can offer please!!! Please have outdoor public toilet facilities!!!!

Bonus - some shorter toilets for the many kids in the area would be terrific.

****that are not locked most of the year like in Okotoks****

I am writing as a passionate cricket enthusiast and a resident of Seton. Many of us in Seton and the surrounding neighborhoods enjoy playing cricket, but we lack a dedicated space to play. Given the growing interest in cricket within our community, I kindly request the installation of a cricket pitch at Seton Regional Park.

This pitch would provide a safe and enjoyable place for local residents, especially youth, to engage in this sport. Your support would greatly enhance our community's recreational offerings.

Thank you for considering this request.

I am writing on behalf of the residents of Seton and the surrounding communities. Cricket is a beloved sport in our area, and many residents actively participate in it(over 250 people). However, we currently lack a dedicated cricket pitch, which limits our ability to play the sport locally.

We kindly request the installation of a cricket pitch at Seton Regional Park. This addition would greatly

Seton Regional Park Master Plan

Phase 1 Appendices – Verbatim

November 2024

benefit the community by promoting physical activity, social interaction, and cultural engagement.
Thank you for considering our request. We believe that this initiative will enhance the recreational offerings at Seton Regional Park.
I believe our regional park should offer a unique experience, distinct from other parks. Let's create a cozy, green space with diverse amenities like tennis and beach volleyball courts, a rollerblade area that transforms into an ice skating rink in winter, and an open gym station reminiscent of California. Surrounded by trees for a natural escape, the park could feature a Central Park-like pond with a fountain, creative bike lockers, hidden speakers in fake rocks for ambient sound, and, as a standout feature, winter events and Christmas light shows similar to Illumi Mississauga. This would make the park vibrant, multifunctional, and truly unique.
I envision this as a good opportunity to create a really nice natural place where people can walk through and sit in. You might see and hear birds and there would be trees and natural areas. Also having part of the space designated for a more communal vibe, with moved grass, space to sit and picnic or kick a soccer ball. The market idea would be fun too. So, a combo of both natural and manicured/community space
i find myself going to Chestermere for the bike park. is there a way to have a dirt jump park? maybe with more weather resistant materials similar to a skate park?
I have family living in the condos just south of the park so we would get a lot of use out of this space since it's basically in the backyard. It's proximity to the sports complex and the high school ensure that a lot of Calgary's younger population will use this park too. The park should fill the gap between traditional sports which are easily available across the street to newer adventure based sports like mountain biking, climbing, hiking, and trail running. A large nature based space that's easy on the eyes for nearby residents but also a collective active space for those less interested in running around a jungle gym or ball sports.
I have truly believed that a large fountain or a water feature with a fountain would be ideal as a central focus to this space. Trees planted to increase shade and aesthetic value. Nice curved walkways that meander around bringing residents to various areas around the park/space. I think it needs to offer a combination of fun and relaxation, and sense of community and connection.
I hope you plant lots of trees and native perennial plants with flowers for bees and butterflies. Additionally, signs with rules for the park and how to respect the space and people in it
I like the idea of public activities/sport courts. Pickleball is so big right now, would be nice to have some additional courts around the city.
I live across from Elsa Tower Park and I think there needs to be parking spaces allowed off the road. Something the City of Calgary is sadly lacking. Bathroom access should also be considered. I know that requires upkeep but that is also important. There needs to be upkeep on the park. Watering and weed removal and mowing. It is a big space and just look at the cars parked there on the road every day. If kids have to get to the park through them there will be an accident.
I live close to seton and would love to have a park like bowness park to enjoy

Seton Regional Park Master Plan

Phase 1 Appendices – Verbatim

November 2024

I live right behind the area and having a place for me and my family to have a nice space to hang out close to our home
I look forward to this park. Would love to see picnic areas and places to stop while walking or biking. A gathering place for neighbours, an area for community season market. A pretty functional park.
I love the running paths in and around the community. I would suggest extending the riverside pathway to extend under the Deerfoot Tr, further east.
I love walking with my family in parks that include extensive path systems through treed/naturalized areas that provide shade, ponds/water features, accessible playgrounds, and access to family washrooms.
I think this is an opportunity to provide the S.E. with a park that celebrates sustainability and neighbours. Keeping the pathways to gravel/permeable surface/indigenous drought resistant vegetation/perhaps a local artist who's focus is related to this theme.thank you CoC ♥️ 🌱
I think this new park could have more teen spaces like skating and bike pump tracks, paved loop trail with large trees/shadows for biking and walking, picnic areas and also some winter activities spaces
I think we should dedicate spaces for group BBQ's with an overhead shelter to avoid rains. An amphitheatre would be nice for community events.
I think what excites me is the opportunity to have paths to walk around and bike and run on. To have a different option for walking my dog. I think lots of trees are a must, a playground for the children and garbage cans around for encouraged cleanup after pets and garbage. I think a pond with a fountain would be amazing as it would be a lovely view from all the condos. Definitely has to be pet friendly with the landscaping as there are hundreds of dogs that live in this section of Seton. Lots of sitting areas and even some picnic tables would be handy for families and friends to have dinners together outside in the evenings or during the day. For sure lots of trees, so it feels like a little nature haven in the city.
I would like for a building to be made for year round roller hockey with sport court! Can also be used for ball hockey. There isn't much opportunity for indoor facilities during the winter for roller hockey guys.
I would like places to walk with my dogs that are more natural so as to avoid toxic pesticides as much as possible. I would like a trail system with plenty of trees and shrubs for shade in the summer and for areas to sniff and explore for my dogs. There are so many playgrounds in the city and not enough 'wild' areas that are accessible. With development companies taking so much of the 'bare land' and converting it to housing, etc, it would be nice to see more of it left for all of us to enjoy.
I would like to have some space for toddlers.
I would like to see a multi purpose park that doesn't get taken over as a dog park, meaning that you have multipurpose areas - quiet, or amphitheater type, etc
I would like to see a wide central path with semi permanent structures for a summertime night market or festival. Also a big pond.
I would like to see an MTB pump track, Dirt Jumps, Or MTB skills park
I would like to see more trees, and shadow areas with tables to do picnics and tennis fields.
I would like to see outdoor gym facilities section to promote physical fitness activities. There are plenty of people that like to stay active outdoors in this area and lots of teenagers and elderly that would benefit, Considering the close proximity to the hospital old folks home and the high school outdoor gym facilities would be well used and very welcomed in this community.

Seton Regional Park Master Plan

Phase 1 Appendices – Verbatim

November 2024

I would love a place we can bring a picnic blanket in the summer and relax with family or a book and also maybe shared fire pits for the winter! More taken care of so that it's not talk nature grass that's full of bugs so you can't stay in the space. Picnic benches spread out would be amazing so people can make their own groups without being in each others way? A space that adults can use as well as families that's not just a play space Shaded areas would be awesome too! It would make it a really good community hub
I would love a really awesome playground for a variety of ages
I would love for some beach volleyball courts to be made in the park to support outdoor physical activity and people of the neighbourhood to come together!
I would love to have a picnic area with lots of greenery. Our area needs more naturalized spaces and more trees!!
I would love to see a bike pump track or a MTB feature track!
I would love to see a frisbee golf course, a 400m running track (there are no outdoor running tracks nearby) and outdoor functional fitness equipment (like what is at the crescent height stairs).
I would love to see a pickle ball/tennis court build in the deep SE. If this is NOT an option, perhaps a quieter gathering space would be appreciated for this busy, full area. Trees please! Green space to gather. Peace and calm.
I would love to see a place where groups can gather and come together but also allows for quieter and more individual activities as well.
I would love to see a playground built for kids with disabilities, including fencing to ensure they can't wander away. Walking paths and water features for people visiting people in the hospital would also be nice.
I would love to see a small market area, a central spot for larger gatherings like music event or such along with some quieter complementative areas tied together with natural trees and grasses to form a beautiful space for many different activities.
I would love to see a spray park and jogging loop
I would love to see a wading pool like in bowness park, Fixed chess tables, Playground with natural materials, natural risk, and geared towards imaginative play like the new Mahogany Central Park Playground Tobogganing hill Water feature Space for community market, possibly with hook ups Public washroom Dog friendly features like dog fountain
I would love to see intentional and sustainable design. Make use of native plants (flowers, grasses, trees); for example: Buffaloes berry, chokecherry, Coneflowers, Yarrow, Milkweed, Blue Flax, Blue-eyed grasses. I'd like to see wildflower corridors that support native pollinators such as butterflies, native bees. There should be covered areas next to playgrounds.
I would love to use this mean to appreciate the Calgary Transit for a job well done thus far. No matter that you have decided to do for us, we are indeed grateful. I am enjoying the active space in my area thus

Seton Regional Park Master Plan Phase 1 Appendices – Verbatim

November 2024

far. Running ever morning around the space to keep fit. I couldn't ask for more. Even though I could not scan with my phone but I am still glad that I could do this on line after being told . :)
I'd love to see some pickleball courts!
I'm a leader with a Scout group in this area. We are always looking for outdoor spaces that we can use to have activities in. If there is an opportunity for group participation or volunteering we would like to be considered.
I'm excited about the new park and would love to see tennis courts included in the design. There are no public courts nearby, and the closest ones are usually occupied, which forces us to go to NE. Having courts in our neighborhood would be a great addition. Thank you!
I'm excited for this park not to cost taxpayers. So no art please.
I'm SO happy you're doing this. I live in Auburn Bay and I run around the Seton area. I've said for years that this area should be made into a park.
I would love to see an area that food trucks can park and lots of running paths.
Idea that it could host markets or events!
Ideas: - fenced in multi-sport area for soccer, basketball, etc. it would be great to have built in soccer nets and basketball nets. With a colour floor area with lines. Can be a smaller sized venue to play sports. - pickleball court would be fun. - play park for kids with monkey bars, slides and other fun things would be great. - a fix table and benches to play board games such as chess would be useful.
If there are some gathering areas, there should be incentive so that these don't get dominated by a small group. They need to be able to be available to all on a regular basis.
If you're putting a children's play area, make seating available close by. Garbage cans all over too.
Include activities and spaces that involve teenagers as well.
Infusing nature back into the city with trees and plants. A nature hideaway for families and individuals to use for relaxation, play and picnics.
Is it possible for the park to also have a skate/bike ramp?
It should be a place where families have a lot of fun and can come for picnic. The focus should be on summer because that's the only time people get to truly enjoy the summer and come together as a community
It will be nice to have walking path surrounding the park with milestone and Motivational quote on side which motivates people to go for regular walk and Running to achieve milestone. 2nd- Small MAZE area for kids to play. 3rd- big straight garden space to organize events such as community yoga. 4- park that has long jump facility or activities that provides physical strength and gives challenge to be physically active. 5- Lawn tennis court.

Seton Regional Park Master Plan Phase 1 Appendices – Verbatim

November 2024

It would be cool if half of the park had walking paths and quiet bench areas to feel more in nature as there isn't a lot of that in seton. It would also like if on one side of the park there was a convertible event area that could also be made into an ice rink in the winters.
It would be good to have water elements like a fountain for summer in the park and a fire pit for winter.
It would be great to also have some water features in the park such as some ponds or a little lake to walk around as well
It would be great to have some features for kids such as ice skating areas, a wading pool, spray park, pump track. Our area is lacking in these more specialized features.
It would be nice for this part to include some sort of water feature, not necessarily a colourful splash park but fountains that people could interact with or splash in on a hot day.
It would be nice to add a off-leash dog area as well.
It would be nice to have a small gated section for an off leash dog park simmlar to the one in the beltline area. With so many condos it would be appreciated.
It would be nice to have a space with the ability to do some active workouts (ie. those permanent gym workout machines) but also some gathering space for small groups. There are so many big sports fields nearby that it would be nice to use this space for smaller activities and gatherings. A walkable, peaceful space that also allows for some multi functional workout spaces. Lots of trees/bushes/plants for a cozy, peaceful, enveloped in nature vibe.
It would be nice to have some water space in Seton similar to Mahogany and Auburn Bay especially with the idea this is the hub for the south. If possible would recommend adding a lake as many feel we are left out compared to the surrounding neighborhoods and not able to use them.
It would fun to have a frisbee golf course here. Maybe also an outdoor functional fitness area as well.
It would truly be great to see a multi use space, with something for the kids, something for gatherings, nature as much as possible and some art and/or functional art.
It's a great location for community events of all sorts, walking trails, etc
It's a pretty flat area so it would be cool to see some dynamic elevations/buildings that allow more 3D use of the space and shade. Dog friendly is a huge plus for us!
Its important for people in high density locations to have green areas to get out & enjoy the weather & socialize with others.
Just looking for another park in Seton as the Elsa park is beyond pushed. Parking should be designated for the park or a timed park with the library/school/hospital being all close by
Keep wheelchair accessibility in mind please! For both children and adults.
Kids big playground. Fun for everyone
Looking forward to this park! Public tennis courts, splash zone and kids playground would be highly appreciated.
Lots of pathways for running and walking.
Lots of big trees.
Lots of running/bike paths

Seton Regional Park Master Plan Phase 1 Appendices – Verbatim

November 2024

Lots of South Asian adult and kids want to play cricket but not having a pitch makes it difficult as we all live cricket, we still play on the grass which makes the ball bounce unevenly and create injury chances. We request city to come with cricket pitches so our cricket community can grow and represent the Canada at a broader level.
Lots of trees and gardens!!!
Lots of trees for shade for bringing babies, nice walking path
Lots of trees so you can feel a little bit like you're in a forest. (The south end of the city could use more giant poplar trees) Walking paths and benches to sit on (with a back) and open spaces to picnic or play.
Community feedback on art installations.
Maybe a bridge between 2 hills. (Everyone lives a bridge!)
A beautiful backdrop where people can go to take wedding/grad photos.
Make it an area that is more family oriented and allows picnics and such
Make it look welcoming and inviting for those that come.
Manicured gardens with native flowers, trees and shrubs with quiet areas for reflection to be surrounded by native pollinators. Rose gardens, peony gardens, Japanese gardens, etc would be a beautiful addition to an area outside the inner city. Sir Thomas and Lady Dixon Park in Belfast would be a great starting point for inspiration for rose gardens.
Many seton residents, especially local youth, love cricket but lack a safe place to play. We need a cricket pitch (ground) to play the sport locally
Mini Central Park: Movies in the park, live music busking, art portraits, pavilions, rest stops, cafes/ice cream shops.
more access to green spaces in a near by community
More playgrounds. The one in seton is already overrun with kids.
More public spaces that will incorporate art, music, creativity, fitness and nature
More space for kids to enjoy
More Trees will be helpful for coming climate challenges Fountain in a waterfall can be a game changer Thank you
Mountain Bike Skills Park
Multicultural events or get togethers , community togetherness
Multi-ethnic events!!
Multi-use gathering place for people and pets.
My family and I love spending time outdoors rather than sitting at home glued to TV pr phone screens. I can't wait to use Seton Regional Park. I have following suggestions: 1. Walking trails 2. Outdoor Fitness Equipment

Seton Regional Park Master Plan

Phase 1 Appendices – Verbatim

November 2024

3. Picnic area with shelter and Gazebos
4. Possibly restrooms
5. Water feature like fountain
6. Community center
Need a cricket pitch very badly in south east quadrant. We are 200+ people from India, Pakistan, Srilanka, Bangladesh origins and we come to play at the ground beside YMCA. That ground is mostly occupied by other sports and we try and use it when it's not occupied but without pitch, it's not safe to play there as it's uneven ground and ball can go anywhere . We need dedicated pitch.
Need a pump track and skate park.
Need more trees in this community
New playgrounds for younger and older kids; Musical instruments or spray park.
nice walking paths would be excellent; A community event area; low maintenance flora (so it doesn't turn into a gross dry grass park with loads of weeds); lots of trees for shady hang outs; maybe a little playground; another hill for winter tobogganing.
No "art pieces" if you're going to make a park and use dollars from the community for it. Paying 1 person to make an art piece for a plot of land is not something anyone is on board with.
No dogs. No skateboards. We bought in the area because Cedarglen promised us a quiet park with trees, paths, benches, and a fountain.
Nothing, looking forward to finish this soon so that people can enjoy and use the new regional park.
Off Leash area
Open space for quite time and nature touch
Outdoor community free events. An outdoor pool. Outdoor movie screenings. Biking/walking path. No dogs allowed. Tables and chairs to sit, not just benches.
Outdoor gym fixtures for seniors
Outdoor pool
Outdoor workout playgrounds would be great!
Park should be best to spend family time with young kids as well as give place for seniors yo hangout
Parking is a HUGE issue in this area
Passive parks in the area would be fantastic! As new resident of Seton coming from an area established commonly (New Brighton) I'd love to have trails or paths to walk the dog. I can't wait for completion!
Pathways marked with distance markers for walking/running would be nice. Would be nice to be cognizant of surrounding buildings and homes as their is a number of senior residences and it is close to the hospital. Do you really want to have outdoor activities that can generate noise for people that are sick and dying?
Peace and tranquility areas with lots of trees for shade. Seating, water and if racquet courts are considered, please keep pickle ball courts physically separated from tennis. Do not mark tennis courts with pickle ball lines.
Perhaps include a washroom as well.
Pickleball courts would be great as we don't have any larger facilities in south.

Seton Regional Park Master Plan

Phase 1 Appendices – Verbatim

November 2024

picnic tables and an outdoor running track would be well utilized!
Picnic tables!
Place for little kids to play would be awesome!
Place to experience nature in the city, and stay active
Plant lots of trees for natural shade. Create Hill and Pond Gardens that mimics natural landscapes with varied elevations and water features.
Playground for children
Playground for kids and a dog park would be ideal.
Playground parks for toddlers and children.
Exercise bars for calisthenics.
Playground!
Please build in some cat eyes or solar lanterns so the park will be safe after 4pm and before 9 once winter arrives. I'd love an active living park area that caters to the seniors and parents in the area. Parks in Asia and Europe have this and are very successful. A winding loop path would be aesthetic and draw people to the park. Trees or shrubs and perennials are wise to spend money on vs manicured grass in our drought. Chinch bugs are rampant in the SE so avoid manicured grass for now. (Or consider clover). Build a shelter/ pergola or three or five to provide spots of shade. A few picnic tables are often a nice touch.
Please consider some covered rests spaces for the folks who can't stay out in the sun. Also garbage disposal areas located in all areas.
Please do not spray chemical herbicides or pesticides such as glyphosate, 2.4.D, round up or any other toxic substance on grass or shrub beds. Ban chemicals in this area. Keep the area natural, less grass but native shrubs. Dogs and people (birds and wildlife) should have a refuge from toxic chemical and herbicides.
Please include a few fire pits! They are so helpful to provide an outdoor activity in the winter.
Please make a cricket pitch in the park.
Please make an interesting space for children and more benches for adults
Please make it accessible
Please make space for artisan coffee shops and meeting areas
Please make sure there are adequate garbage cans and poop bags, lighting
Please no areas for huge sports - ie Basketball, Cricket, Volleyball, etc. These have their own places, not in this park. Too many people can crowd a space due to these sports - and many people means less security. We need more trees, areas where family can go to have time together, without being overwhelmed by noisy games. Families and kids should be free and feel safe when in this park. We need activities but not sports of any kind in this park. Maybe a splash park for kids, close to picnic tables. Washrooms. Security/Police close by. Many shade trees.
Please no cricket park. I'd like to have a space inclusive to all and not to a specific sport. Would love to see picnic/bbq areas, tennis/badminton courts, gazebos for group entertaining.

Seton Regional Park Master Plan

Phase 1 Appendices – Verbatim

November 2024

Please provide a multi use play ground which supports sports like running Track, Cricket, outdoor ice skating,
Please put in a bike skills park similar to what exists in Chestermere! It would be a great way to get people into mountain biking in a safe way
Please, construction additional parking.
Please, please, please include an MTB skills park and pump track with different options for all ages/skill levels. We don't have this in the deep southeast and it would make the park a destination for people of all ages and spectators. It's fun to watch even if you aren't riding!
Please, provide parking for vehicles (no parking available on adjacent streets).
Public tennis/pickleball courts please!
Public washroom on site- so it is accessible for all
Public washrooms would be great !
Public washrooms would be nice and parking for visitors
Public Washrooms.
Pump track.
Pump track
Pump track climbing walls or rocks a hill to slide in winter!
Pump Track or MTB SkillsPark!!!
Pump track would fit well. A smaller version for younger kids too
Pump track!
Pumptrack would be awesome!
Put in some trees please! We need more shade!
Putting green
Running and walking track around the outside
Safe and interesting place for children to explore
Seton is quickly becoming a very densely populated area with an abundance of multifamily dwellings. I would like to see a quiet space with lots of trees and walking paths to allow people to decompress from busy schedules as well as amply space for kids to run and play.
Seton needs more playgrounds and fitness areas
Shaded area please! There's never enough during summer. A splash park/pad would also be great
Shaded areas for hot summers outdoor
Should be quiet ,relaxing area with trees, benches and walkways.
Signs that say "no dog pooping" here
Water fall feature
Shady areas
Picnic tables
Since moving south from downtown, I've missed the mature nature that elbow park offered. I'd love for the SE to offer more nature escapes / parks that will grow to feel similar.

Seton Regional Park Master Plan Phase 1 Appendices – Verbatim

November 2024

Since the City took away Street Parking in front of the buildings occupying the same block as the park, I am hoping the City will add parking spaces within the proposed park area.
A Frisbee Golf (Disc Golf) Course would be very nice in this area as well.
Since the HOA facility will host lots of activities and public gathering places, I think this park should provide more of a quiet place to go in nature as life is so noisy and busy. We could use a healthy place to retreat.
Since there are already sports facilities nearby (YMCA), I envision this park to have mostly passive park spaces. It would also be nice if the pathways are well lit so it can be enjoyed for evening walks up to a reasonable time.
Small lake for summer day out with family will be awesome!
Some kind of water that can be used for paddle boarding, kayaking, maybe fishing. Maybe some water features like waterfalls and streams. Well shaded areas, lots of trees. Maybe some fruit trees and fruit bushes that can be picked, and maybe some community garden boxes.
Some sort of bike park or pump track, skills park.
Some water bodies like small ponds would be an added benefit.
Some where to walk the dog, have kids play and room for community events. Please also have a plan in place to deal with foxtail weeds! They are so dangerous for pets and there is so much currently in the area!
Sounds like a wonderful project!!
Space for events - movies in the park, farmers market style space, large group hang out spots, smaller group hangout spots, plaza events area for outdoor concerts
Spaces for festivals (noise disturbance observed), stampede breakfasts/neighbor day, food trucks
Spaces for food trucks.
Spaces for kids to play and teams to gather are best with available parking lots. Please don't waste tax dollars on "art". Nature is beautiful without pieces of steal.
Specific activities - disc golf course for example.
Splash pad, space for sports, ample seating, playground,
Splash park
Splash park and playground combo
splash park and swings for the kids
Splash park for kids place for concerts like a stage
Strolling trails with gardens/greenery. Seating spots to enjoy coffee & chat with friends. Inviting , unique features like art or water features. Nature area within a suburban area.
Summer is too hot in Calgary, we need shade areas and maybe an outdoor splash park and big trees will make the park more appealing. Thanks
Tennis court
Tennis courts are much needed in this area. Even with the ability to access Mahogany and Auburn bay lake tennis courts are hard to come by. There's a huge need for more

Seton Regional Park Master Plan Phase 1 Appendices – Verbatim

November 2024

Tennis/pickleball courts!! There are hardly any in surrounding communities as they are all gated access. Public courts are hardly accessible anymore and only in older, central areas. A splash park would also be fun for all the nearby families.
That is a great location and it will have a lot of users since the communities surrounding it are dense with families. Our family really enjoys the spray park at South Glenmore, something similar in this new Seton park or a waddling pool like in Riley Park in the NW would be an amazing addition
The addition of single track biking/hiking trails and a mountain bike skills park would get people off the couch (and the younger generation away from their screens) to enjoy fun and healthy cycling activities that have long term physical and mental health benefits.
The area needs a baseball diamond
The city has been unable to keep flowerbeds and blvds cleaned and manicured or fix crumbling sidewalks in Cranston and Seton. There is no confidence that this space will be maintained. Fix existing issues before creating more.
The high density community is very diverse from senior to young family we need to accommodate every one
The idea of a new park in our area is extremely exciting!!! Thank you for making it possible!
The park should have a combination of recreational and relaxation spots. A place where children and young teens can enjoy themselves during the summer, ideally having a water park/sprinkler system and a playground (as Seton has very few playgrounds). As well as keeping in mind, the older adults who would like to enjoy the park. Ideally having available seating for elderly scattered across the park and tables for family's to enjoy picnics during the summer.
The park will really connect the communities of Cranston, Seton, Auburn bay, Mahogany and Rangeview to create a tighter knit community between those neighborhoods. Instead of the communities just having their own private amenities, a shared space for Calgarians in the SE Corner that reflects natures beauties is needed!
The perfect spot for a play area for children would be near the YMCA. Please no pickle ball courts. They are too noisy. A practice area for basket ball hoops would be an excellent addition. Walking paths are most welcome. Lots of seniors live near by and walking paths would be an asset for them. Don't forget waste bins. There are many dogs in the area, therefore signs reminding dog owners to cleanup after their pets is a definite need. Water features aren't necessary and neither is art. We need lots of trees to attract birds. An attractive low rise fence should be built between the condos on Seton Drive and the park to discourage the "cut through" walking traffic from the condos across the street. Residents in the first floor condos often have their privacy compromised by people cutting through between the buildings. Basically walking paths, trees, shrubs, gathering spots and benches are a simple development of the park.
The SE doesn't have any mountain bike skills areas, the closest one is the Chestermere bike park. This would be a great addition.
The timeline for the project seems far off. I would recommend that the project be completed before 2026 for accountability and transparency.

Seton Regional Park Master Plan

Phase 1 Appendices – Verbatim

November 2024

There are enough native plants and natural spaces in neighbouring Riverstone. Manicured spaces are much needed.
There is huge potential with this area, can we have a cricket pitch please
There is not sufficient parking for activities that bring another of people. We can barely park our residents cars now! Quiet space, this is residential area!
There should be a lot of tree coverage so that people will actually use it during the summer. Especially since our summers are getting so hot now.
There's lots of young families in the area so a wading pool and playground for kids would be awesome.
They are a lot of youth and teens in the neighbourhood and I think they need to have a safe outdoor space to get together and hang out. Maybe a park area with groups of benches where they can gather would be a good idea.
Think ahead — vandalism proof materials, design that discourages vagrancy. This area is windy, so features should block and reduce winds.
This area is in the middle of a very dense neighbourhood with a large seniors and young families presence. A walking path so seniors and dog walkers can get out, benches to stop and rest or visit, a great playground for kids, a place grandparents can enjoy watching the kids from a bit of a distance (not too noisy). nice grass for outdoor yoga, Tim Bits soccer etc. Big trees, seasonal flowers, apple trees, picnic area and a covered picnic area with bbq for larger family gatherings. A swing set separate from the kids area for adults to enjoy, closer to the trees.
This area of Calgary desperately needs tennis & pickleball courts. YMCA has none, and Auburn Bay nearby is private use. Courts that could accommodate a cover/tennis bubble would be even better.
This could be a community place where people are encouraged to have picnics,celebrate birthdays, etc
This is an amazing initiative by City as we have been living in this area for almost 3 years and have felt the missing element which is regional park as there are lot of residents in this area with kids and youth and it is always difficult to find place for them to play, spend time and refresh. So, this park will play a major in development of kids and also gives chance to families to mingle and grow!!
This park is located in an area next to apartments and condos with lots of mature singles, couples without children and working professionals. Please do not make this park kid friendly with a bunch of playgrounds, there's enough kid friendly activities in the area or close by. Make this a mature park where us without kids can enjoy in peace and quiet. Make it a place for gathering, socializing and peaceful. Fire pits and and alcohol friendly picnic areas. Pet friendly as well. Again, I cannot stress this enough. It doesn't need to have a play ground on it. Let's have a space for adults.
This place should blend-in very well with the residential communities close-by. A quiet activity park is most desirable, and any potentials of misuse or abuse of the place should definitely be avoided.
This space is surrounded by condos the daily noise should be minimal. Sports fields and fitness equipment is available close by and should not be in the park. The odd community gathering such as pop up markets or music festivals would be great too
This would be a great area to include a bike pump track and/or skills park similar to Fish Creek or Chestemere's offering.

Seton Regional Park Master Plan

Phase 1 Appendices – Verbatim

November 2024

To give Seton the same kind of family/social environment as other communities where relationships can be built and developed.
I would also like to see a water play pad and mini pond included in the amenities
Tot lot play areas
Treed pathways, quiet benches with backs, wheel chair accessible, undulating topology, accent features
Trees please! Natural landscapes that provide shade, windbreak, and not lawns that require irrigation. Also special consideration of challenging drainage issues in the area for all seasons of use.
Trees with shades, chairs and flower garden
Trees, big trees, paved walkway
Trees, trails, and tranquility.
Very excited to learn about this new park. It will be a great addition to the neighborhood
Wadding pool and playground. All the wadding pools are in the North the south has none and it's a long drive to go north.
There's lots of us that don't live in a lake community so it would be nice to have that option.
Walking paths and event spaces would be great.
Walking paths for running or biking would be nice to see.
Walking the dog, playing catch or frisbee with the kids, maybe pickleball courts. I like the idea of having walking paths around the border but mostly not right on the street with usable space in the middle, maybe one side more open park type space with benches on one side and event space with group seating and flexible seating on the other. I like the new park in mahogany between mahogany road and mahogany gardens. Art is better if it's functional (benches, shelter, gathering/event space etc. would use naturalized areas instead of gardens/planting beds but have plenty of manicured lawn space. Think about planning and advertising lawn sprinklers to turn on during hot days for people to cool down and kids to run through. Lots of trees around the border.
Walking trails!
Washrooms will be appreciated
Water features would be nice
With the YMCA and hospital so close, it would be nice to have a space which is around quaintness, serenity, and beauty. An area to find peace and regroup. Whether staying or visiting those in the hospital or after a few hours at the YMCA... or after a long day at work, to connect with nature.
Water features, adult swings
Water features.
Water or ice skating feature? More like Riley or Bowness.
Water play area, tennis court.
Water playground
Water splash zone to cool off during the Summer period
We already have land east of the highschool for Cricket ground and other sports. Since almost 1000 condos surround this park on three sides this space should be designated as a park. Paths, benches, trees with both manicured and naturalized land for use by all. Some landform would also be welcome and

Phase 1 Appendices – Verbatim

November 2024

this could become a mini version of a “Central Park” for all Seton residents. Skate, dog parks etc already exist in the community and the new HOA will have a spray park. We should respect the residents that have purchased properties that face this area and keep the potential noise in mind that could come from what is ultimately created.
We are excited for this upcoming park in this community.
We desperately need more trees around here, to stimulate wildlife! We need to bring birds to the park!
We have been living on the street Seton park SE since 2019, from that time until now we have become parents and in our community we are definitely missing something for children (the smallest children), we are missing trees, benches or playground. Since the winter in Canada is longer than the summer, there is definitely something for the winter season :)
So far, I used the paved sidewalks around the park during the winter with my stroller and it was definitely better than sitting at home. :)
we are looking forward to new park
We have been requesting cricket pitch as we are about 400 cricket players in the south. This group will serves purpose of cricket for neighboring communities as well, not let alone seton. Pls assist
We love spaces that encourage community events & gathering. Covered/shaded areas are a must
We need bike tracks, a splash park, a tennis and a volleyball court
We need more Nature. Lots of trees, shade, and pathways. Lots of apartments overlook the park so something quiet is better.
We need outdoor spaces designed for children to play
We need tennis/pickleball courts nearby! Also more greens and shaded areas for walking would be nice. To a healthy, active community!
We want a cricket ground in Seton. We have a big group who is dedicated to play cricket in the area
We want spaces that are safe, clean and easy to navigate. Parking spaces available for use - street parking perhaps. We would like to have a space to enjoy family time such as picnic areas, and kids playground. Having good shade from trees are always preferred than buildings. We want to have a feel of a "central park" feel somewhat like new york.
We would like to have cricket Ground
We would like to have Cricket Pitch.
We would love a pump track/MTB skills park in this space! There are a lot of families in the deep S.E. that don't have easy access to these public amenities (our closest being Chestemere).
We would love to have a nicely maintained pump track
We would love to see an accessible playground, with ramps and lower equipment for those in wheelchairs or kids of young age. With a soft rubber ground surface.
We would love to see community fire pits, if this is possible!
We would love to see some water features in the park (fountain, pond, stream, etc.)
We would prefer to have a cricket ground with turf pitch.
Weather resistant and native plants!! And No off leash dogs!!! And doggie bag/poop stations. People that live in the condos use it as an off leash and poop area right now. Crap everywhere.

Seton Regional Park Master Plan

Phase 1 Appendices – Verbatim

November 2024

What expected is the order of magnitude budget for the SRP? This help in determine what I can put effectively input on. I ask that we DO NOT duplicate amenities offered in YMCA, Seton community, Auburn bay community, or Mahogany
When I think of a park the things that come to mind are connected to bringing people together. A park is an area where you can explore nature and relationship hand and hand. A park should be a safe place for any age. It should be well lite at night, plenty of accessible seating with lots of recycling and garage options. Paths should be wide enough to accommodate two way flow of cyclists, walkers, scooters, joggers etc.. There should be an area for the arts and music. Water features are also great. One of the nicest parks I can recall is vondelpark in Amsterdam. Something like that on a smaller scale would be amazing I.
Why dies it take 4 years? Typical City of Calgary.
Why does the elements question not have an other option, every other question does.
I'd like to see a bike pump track and bike skills park in there as well.
Will be nice to have an enclosed/fenced in children play area.
Will there be an area with usable outdoors exercise machine ?
Winter activity areas. Picnic areas.
With living in the area for the past 4 years. Parking is constantly an issue. As hospital staff park here and walk over. Residents that don't pay for parking in their buildings park on the street. It's always FULL.
With the high school across the street how is the usages of the park going to be monitored and how is keeping to clean going to occurred
With young families in the area this will be a welcome addition. Will you be providing parking for this and will it fall under park plus metered parking? Ted Morin
Workout equipment for teens to adult to encourage active living
Would be great to have a space that could be enjoyed on every season, (from biking and picnics to sledding)
Would be great to see bike specific areas. Skills park, pump track etc.
Would like to have an outdoor pool similar to Riley Park or Prairie Winds/double as a community rink in the winter; outdoor concert/performance space/amphitheatre; community orchard (fruit trees); toboggan hill with fire pit/shelter; charcoal bbqs/areas to picnic; outdoor exercise equipment
Would like to see items NOT available at the Y such as a water feature/splash area, lots of topographical landscaping with native plants, lots of trees, paved pathways, area for markets/cultural events, garbage cans, pet waste stations, some picnic type areas, accessible for handicap and pets to be leashed and walked. NO sports areas (all available at the Y and high school grounds).
Would like to see trees in this area
Would live to see bike skills park
Would love a space that feels like you're not the city, such as fish creek park. A space that also isn't made JUST for children but for everyone to enjoy.

Seton Regional Park Master Plan Phase 1 Appendices – Verbatim

November 2024

Would love this space to be used by the YMCA daycare & library to host events. It would be great to have a bandstand type of thing for the high school band to perform and others of course.
Would love to have a tennis court
Would love to see a mountain bike pump track
Would love to see a playground!!
Would love to see a pump track for the many mountain bikers in the SE.
Would love to see a space that is functional for all different ages and stages of life. Like spaces where children can play that are more visually appealing than the typical playground
Would love to see an accessible playground. The Maffeo Sutton playground in Nanaimo, BC is a beautiful example! Natural spaces with native plants (yarrow, kinnickinnick, etc.) would be so beneficial and attract pollinators.
Would love to see frisbee golf, 400m running track and outdoor functional fitness equipment like at crescent heights stairs
Would love to see pickleball courts installed very limited courts in this area of the city. An outdoor rink would be nice as well.
Would love to see some shaded areas, much like Confluence Plaza. Walkways would be a nice feature as well as multiple gathering areas, with it being close to the hospital it would be nice to consider it as a place for people to relax after visiting loved ones in the hospital. Lots of space to relax and picnic. Variety of trees to provide interest and shade.
Would love to see something for everyone like for all ages groups.
Would love to see tons of trees, green space and a place to have outdoor concerts. Also if there's a nice walking path around the park.

Seton Library

Staff:

Walking paths that are surrounded by trees, beautiful lights and a fountain. A place to relax and destress
A gazebo for story times and outdoor activities
