

# **Segment 2 - 20 Street N.W. to North Hill Centre pedestrian overpass.**

## **19 Street N.W. Option 3 –**

Key features include:

1. Pedestrian waiting areas in median to allow for crossing one travel direction at a time
2. Removal of traffic signals and reconstruction of the intersection with roundabout offer continuous traffic flow
3. Removal of east crosswalk to reduce potential conflicts occurring between vehicles and LRT crossings. Pedestrians may cross at existing overhead pedestrian flashers at Lions Park LRT station
4. Improve connection to Lions Park and LRT station for south crossing
5. Remove transit stop and consolidate with transit stop to the east. Remove potential conflicts at intersection when bus is stopped.
